# Practical Skills for Managing Invasive Pests Workshop

Tuesday, March 26 • 9 A.M. - Noon

Lawrence Barringer, PDA, [Bugwood.org](http://Bugwood.org)

Commercial and backyard growers are invited to join members from the Departments of Entomology and Extension for a workshop that highlights recent research results and reviews the latest recommendations for key practices in monitoring, identifying, and managing the **spotted-wing Drosophila** and **Brown Marmorated Stink Bug** on fruit and vegetable crops.

Although the **spotted lanternfly** has **not** yet been found in Ohio, this invasive pest has been detected in nearby states, so we'll provide some tips to remain vigilant for this potentially new pest of grapes, hops, apples and cherries.

For more program details, visit: [go.osu.edu/invasives19](http://go.osu.edu/invasives19) or contact Jim Jasinski, [jasinski.4@osu.edu](mailto:jasinski.4@osu.edu)

**Registration required. Deadline March 22. Limit 35 participants. Coffee and snacks provided. Cost \$5 at the door. Register at [www.surveymonkey.com/r/OSUinvasive](http://www.surveymonkey.com/r/OSUinvasive)**
